

Governor: Renate E. Daniels, DTM

Year: 1985-1986

Theme: **U**se the
Power of Toastmasters

Most Positive Accomplishments:

The District exceeded the critical success factors and became a Select Distinguished District for the first time.

	TI Goals	Actual	% Goal
Competent Toastmaster Awards (CTM's)	129	204	158%
Able Toastmaster Awards (ATM's)	18	53	294%
Clubs Chartered	+2	+11	550%
Per Capita (number of times dues paid)	+73	+468	641%

Those persons whose help highlighted my year:

The thousands of Toastmasters who set personal achievement goals and exceeded them. The Toastmasters who made the "Charter + 5" membership drive work. The Toastmasters who would call and report on their successes, giving me a shot in the arm.

The area governors who always asked how they could help and then did it. The Division Governor who normally ended his reports with "DWA" (don't worry about it) and always came through. The Division Governor who moved out of the district, yet kept the division running from hundreds of miles away. The Area Governor who pulled an entire Division together and provided a solid basis for that Division.

The Past District Governors whose advice, when I was planning for the 1985-1986 year was invaluable and kept the team from repeating lessons they had learned. In addition, the Past District Governors worked as a team and tackled a number of difficult issues that were resolved by the District at the Spring conference.

My favorite memory:

Each of the top three district officers had periods when they were unavailable to the District. Whenever that occurred, the other members of the team stepped in to help each other and perform the functions of the job. We were in it together.

My most vivid memory:

The Fall Conference in 1985 in Stockton. International President Helen Blanchard was making an official visit and was to present the awards at the awards breakfast. A number of us had been up until 3 a.m. lettering and signing certificates and putting the awards on a hotel cart, in the order in which they were to be presented. Past District Governor Mike Denney knocked on my hotel door and woke me up 5 minutes before the Awards breakfast was to start asking whether he could help get the awards downstairs. If he had not had that kind thought, I would have overslept. He moved the awards downstairs and I made it to the receiving line in time.
